PL

Wypełnienie ma tendencję do migracji i zbijania się.
Ręczne uklepanie poduchy i równomierne rozmieszczenie wypełnienia pozwala na ponowne uformowanie i nadanie pożądanego kształtu.

EN

The filling tends to move and stick together.
Manually patting the cushion and evenly distributing the filling allows it to be re-formed and given the desired shape.

DE

Die Füllung neigt dazu, sich zu bewegen und zusammenzukleben.
Durch manuelles Klopfen und gleichmäßiges Verteilen der Füllung kann das Kissen wieder in die gewünschte Form gebracht werden.

FR

Le remplissage tend à migrer et à s'agglutiner.
En compactant manuellement et en répartissant uniformément le rembourrage, vous pouvez redonner à l'oreiller la forme souhaitée.

CZ

Výplň má tendenciu sa presúvať a zhľukovať.
Ručným zhutnením vankúša a rovnomerným rozložením výplne ho môžete vytvárať do požadovaného tvaru.

SL

Výplň má tendenciu sa presúvať a zhľukovať.
Ručným poklepaním vankúša a rovnomerným rozprestitím výplne ho možno znova vytvarovať a upraviť do požadovaného tvaru.
